THURSDAY, Dec. 30-P. M.

The attention of Stock operators is mainly turned to Nicaragua, of which about 10,000 shares have been sold to day. This activity in that particular Stock has undoubtedly an effect in producing dallness in other Stocks. Nicaragua opened at 37, touched 35, recovered between the Boards to 361, and finally closed at the Second Board at 354. After the Second Board, some sales were made at 36. The sales of the Second Board were very large, reaching 5,000 shares. The general impression of the street was that the movement of the day was a ruse to induce short sales. Erie was ock to day, with more activity than has been noticed of late. Sales at the Second Board were made at 935, dividend off, for the opening, equal to 974, an advance of 1 & cent. Long Island does not sustain itself at yesterday's advance, closing at 32, after selling at 31. Harlem is firm at 73. Hudson River is better. ing is firm at 98@981. The Coal Companies are buoyant to-day. Cumberland, 664: Phoenix, 274: Parker Vein, 66; New Creek, 51 @51; Pennsylvania Coal, 1231. There is a good deal of confidence feit in the better de scriptions of Coal Stocks. Canton fell off to 116. Jer. eey Zine was firm at 13. The premium Stocks were firm, and in fair demand. Rochester and Syracuse, 194; Southern Michigan, 127; Michigan Central, 103; Cleveland and Columbus, 130. The sales of Bonds reached \$75,000, with a tendency upward. In Government and State Stocks the transactions are moderate but holders are very firm. The feeling at the Second Board was very firm.

In Exchange there is but little doing and the market is heavy. The supply of Sterling is good, and the range is 929 for first class bills. The market is quiet for France at 5.161 @ 5.19}. The amount of Southern Sterling coming forward is considerable.

In Freights there is nothing of importance doing, as shippers are waiting for the steamer's advices. To Liverpool the nominal rates are 3 6@4, for Flour ; 10@10jd. for Grain ; id. for Cotton. Beef 4/6@5/. To Glasgow 1,000 bbls. Flour were engaged at previous rates. There is a good business doing for California at full rates.

As the usual settlements of the end of the year progress, the demand for money becomes more active; to-day the inquiry has been large. Call loans have been made freely at 7 4 cent., although occasional transactions have been made at a less figure. The Stock houses, however, were all willing to pay 7

P cent, for accommodations. A large amount of loans
were called in for to-morrow in anticipation of the disbursement of dividends and interest on Monday next. One institution called in \$400,000 for this purpose Next week a large amount of money will be liberated which has been accumulating for the above purpose, not less, probably, than four millions of dollars, a very large proportion of which will be reinvested. A portion of the present activity in money is due to the drafts from the West on the balances, which are held in this City. The Western Railroads are using large amounts ney, a very large portion of which is drawn from this City, to return again, however, in the current which continually sets toward New-York. The de-mand to-day has been increased by the appearance of sight drafts from San Francisco, drawn against the gold which has not yet arrived.

The disbursements of the Sub-Treasury continue to be large, to-day \$326,055. Received \$65,360. Balance, \$2,350,092.

The new Banking House of Gilbert, Coe & Johnson has been officially appounced. It is formed of Mesers Gilbert and Johnson, George S. Coe, late Cashier of the Ohio Life and Trust Company ; Wm. S. Nichols. for several years Cashier of Messrs. Gilbert & Johnson. and Robert Bayard, Esq. The latter gentleman is the special partner, and contributes \$250,000 to the capital stock of the House. The entire capital will be about eight hundred thousand dollars. Next week Messra. Gilbert, Coe & Johnson will take possession of their new and convenient offices, on the corner of Williamet, and Exchange-place. We trust the new house will be as successful as its antecedent, and more could not be wished.

Coupons due on the 1st inst. on the Plattsburgh and Montreal Railroad will be paid on the 3d prox. by Ketcham, Rogers & Bement, at No. 45 Wil-

The Pennsylvania Coal Company has declared a semi-annual dividend of 5 per cent., payable on the 8th of January.

The books of subscription to the capital stock of the Merice Bank will be opened on the 5th of January at the office of the New York Fire and Marine Insurance Co., No. 72 Wall st.

The bills of the Farmers' Bank of Onondaga and the Merchants' Bank Oswego, are selling in the street at 621@75c. on the dollar. There is some propect of an arrangement by which these notes will be-

There is quite a large business doing in Railroad Bonds at private sale for investment at home and abroad. There is much discrimination used in purchases, and second-class securities go with as much difficulty as at any time during the year; but of strict ly desirable bonds the aggregate of the business of the last week or two has been very large.

In relation to the change of the Ohio State

In relation to the change of the Ohio State Agency here, The Cincinnati Gazette says:

The Trust Company has acted as the transfer agent ever since it was established, and has performed the duties not only satisfactorily to all parties and without the loss of a dollar, but it has more than once, by its own merns, saved the credit of the State. We believe the State paid it for the service and the immense responsibility \$2,000 a year. We understand the new agent has engaged a clerk from the Trust Company office at \$2,000 a year, and in addition will have to pay office rent and contingencies, besides the salary of the agent. The increased expense to the State by the change will be equal to three or four thousand dollars a year, with a decreased security. Why is the change made? Because the Trust Company ask of the State to comply with its contract as to the taxes to be levied on it, and proposes to submit the question to the courts of law.

We ask the attention of coutractors to the

We ask the attention of contractors to the advertisement of the Aliegheny Valley Railroad. A friend well posted up in this Road writes as follows: It is of vast importance to the Coal trade, as we intend to supply the East through this route with our unequaled bituminous Coal. This Road is to connect with the Buffalo Road, for which that city has subscribed \$400,000, and also with Boston and Albany. Our trade with Boston in the way of Domestics, Hats, Shoes, &c., is very large, and owing to the disposition of the Philadelphians to prevent goods purchased east of that city to be expedited as soon as their own, the natural inference is that all goods purchased at New-York and east of it will be sent by the Allegheny route, especially as it will be far the chespest route. An inumese business will be done on this Road in the carrying of Flour and Grain, which, at the rates demanded on the Roads leading through Philadelphia, amounts to a prohibition. The City of Pitteburgh is now going largely into the manufacture of Flour for the Eastern market, and it will ultimately be a very importent trade for Philadelphia or New-York.

The Ulster County Bank have declared a dvertisement of the Allegheny Valley Railroad. A

The Ulster County Bank have declared a semi-annual dividend of 5 P cent. out of the profits of the last six months, and show a surplus of profits on hand of between 30 and 40 % cent. upon their capital.

There is some little anxiety felt in the street in relation to the Pacific, which was due on Monday. The amount of insurance on her is very large. The bed weather experienced by the Franklin is, however,

sufficient to account for her delay.

The dividends payable in Boston in the first ten days of January exceed two and a half millions of dollars. Money is easy at Boston at 627 P cent. The demand for Manufacturing Stocks continues large, and prices are buoyant. '

The net earnings of the Concord and Montreal Railway, for the six months ending Dec. 1, after deducting all expenses, and smount paid to lower roads, \$44,000. At this rate, for the year the net income will be \$88,000

The Cincinnati Gazette, of the 24th, says: "There was quite a little flare up at Columbus on Saturdey, at the public sale of the Frankin County Stock in the Cleveland Railway. The County held \$50,000, and advertised it for sale at auction. Mr. Payne, Vice-President of the Company, gave the Commissioners notice not to sell, because the Railway Company had indorsed the County Bonds, which were issued to pay for it and emanating the payment of them: and while these notice not to sell, because the Railway Company had indorsed the County Bonds, which were issued to pay for
it, and guarantied the payment of them; and while these
obligations are out the Company will not consent to
transfer the stock, except to take up the indorsed bonds.
The Commissioners were advised by counsel that they
had a right to sell, notwithstanding their bonds were out.
At the time of sale, however, they proposed to sell in
lots of \$5,000, to be transferred on the payment in County bonds at per. The premium or amount of sales above
par, to be paid in cash. The county to receive the dividend on the stock untill transferred on the Company's
books. The Commissioners reserved one bid for the
county. Several persons denied the right of the seller
to change the conditions of sale. The advertisement
was to sell for each in lots of \$5,000 or upward, to
suit purchasers. The conditions of sale as changed,
would prevent men from bidding who would wish to
be safe. A Mr. Donaldson avowed his readinces to take
the whole at \$130 a share, cash. He read a letter from
Mr. Handy, treasurer, advising the sale at \$130, as it
was not likely to be worth more. The parties got much
excited and talked loud. In the midst of this, an in
definite postponement of the sale amounced the farce
ended.
